As an Island steeped in Viking and maritime heritage, no itinerary that includes the Irish Sea is complete without dropping anchor in the Isle of Man.

The Island has long been a favourite port of call for cruise lines, with a choice of berths and anchorages across our picturesque coastline, from the sweeping bay of Douglas's Victorian promenade in the east and the historic seaside town of Peel in the west, to the tranquil, scenic backdrops of Port St Mary and Port Erin in the south of the Island.

With short travel distances between various attractions and activities, your clients will be able to enjoy all the Isle of Man has to offer during the time they are ashore. Take advantage of one of the many shore-based excursions available and truly experience the Manx way of life.

Visit the world's largest working waterwheel, the Lady Isabella, in Laxey's picturesque village or board a vintage electric tram which will transport you from Laxey Valley to the summit of Snaefell, the Island's only mountain. Follow in the footsteps of Vikings at Peel Castle, or visit one of Europe's best preserved medieval castles, Castle Rushen. For those seeking thrill and excitement, take a trike tour on the world famous TT Mountain Course, where speed has no limit.

Our dedicated Cruise Team work closely with cruise lines, offering local expertise and advice for those who already visit our Manx shores, and also to those who have yet to discover the timeless spirit of the Isle of Man.

The Island offers the advantage of an extensive and unique public transport network – including buses, steam trains, electric trams and horse trams so groups travelling without their own transport are well catered for.

Getting around the Island

Isle of Man Steam Railway

Step back in time for a journey your clients will never forget. Experience the grandeur of travelling between Douglas and the south of the Island on a Victorian railway.

Customers can sit back, relax and enjoy a journey through the beautiful Manx countryside thanks to Victorian engineering that has well and truly stood the test of time.

Opened in 1873, this narrow gauge railway still runs with its original locomotives and carriages, through an ever changing landscape, to a choice of destinations in the south of the Island. These include the ancient monastery of Rushen Abbey, the impressive Castle Rushen, the Old House of Keys and the Nautical Museum all within the ancient capital Castletown and within walking distance of the town's station. Further down the line there are a number of sheltered, sandy beaches, and the IoM Steam Railway Museum at Port Erin.

A one way journey through the beautiful Manx countryside, on a track running the full length of Douglas to Port Erin, takes an hour to complete. In July and August, the peak months of the holiday season, there are up to seven return trains a day, one of which is an evening service.

Additional information: Coach drop off points at Douglas and Castletown railway stations, onsite coach parking available at Port Erin railway station, disabled access is available on board by pre-booking, onsite café available at Douglas and Port Erin railway stations, onsite gift shop at Douglas, Castletown and Port Erin railway stations. Pre-booking is recommended.

Group Dining with a Difference on the Dining Train

“The Dining Car was the highlight of my trip”

Pullman style fine dining can be experienced in the Steam Railway's beautifully restored Dining Car.

Built in 1905 and restored in the Spring of 2013, the plush Dining Car is one of only a handful of fine dining narrow gauge dining cars in the world. Offering a mouth-watering menu using only the finest Manx produce, the Dining Car is fully licensed and has a carefully crafted list of 14 wines and a Cocktail Bar Car. With capacity of up to 88 people the Dining Car offers a variety of events to cover a wide range of budgets from our Pie and Mash nights to exquisite gourmet dinners. The Dining Car is also available for private hire with menus tailored to your group.

Manx Electric Railway

Take an unforgettable journey along the east coast on this unique Island railway which dates back over 100 years.

The Manx Electric Railway was built between 1893 and 1899 and connects the Island's capital, Douglas, with Laxey in the east and Ramsey in the north. The 17.5 mile railway journey takes 75 minutes and will take you along some of the most scenic stretches of railway in the British Isles.

On one side you'll experience the beautiful Manx countryside, glens and picturesque villages and to the other you'll have far reaching views out to sea.

There are currently 48 official stations and stops on

the line. Maximum group size: 76 people per tram (multiple trams available).

Average length of visit: 1 hour is full line length, 30 - 45 minutes to/from Laxey.

Passengers can alight at Laxey in order to board the Snaefell Mountain Railway.

Additional information: Coach drop off points at Derby Castle, Laxey and Ramsey railway stations, onsite coach parking available at Laxey station. Disabled access available on board by pre-booking, onsite café at Laxey and Dhoon railway stations. Pre-booking recommended.

Getting around the Island

Snæfellsfjall Railway

Dating from 1895, Laxey is the starting point for the Snæfellsfjall Railway, a unique Victorian enterprise which winds its way up 2,000 feet to the top of Snæfells. Snæfells is the Island's only mountain, its summit 2036 feet (621 metres) above sea level. The name Snæfells, or Sniaull in Manx, comes from the Norse for Snow Mountain.

On your journey up the mountain there are spectacular views on a clear day. It's the only place in the British Isles where you can see seven kingdoms - England, Ireland, Scotland, Wales, Heaven, Mann and the Sea - just by turning around.

A range of special dining events offer stunning views at the Snæfells summit café, from Sunset Dinners to Pie in the Sky, the latter featuring stargazing and supper with the Island's Astronomical Society. All welcome group and private bookings.

Visit www.rail.im to see a full list of scheduled dining events, or email hireme@gov.im to discuss any bespoke requirements for your group.

Average length of visit 1 hr 20 round trip. Maximum group size 48 per tram, multiple trams available. Why not link with the Manx Electric Railway for a half or full day itinerary.

Getting around the Island

Douglas Bay Horse Tram

The horse trams are an iconic part of the Isle of Man. Started in 1876 by Thomas Lightfoot to take advantage of the booming tourist trade, the 3ft gauge horse tramway runs from the main depot at Derby Castle, along the Promenade to the Villa Marina and Gaiety Theatre and new Cultural Area.

Many of the original fleet of cars are still in use today, and it is a popular tourist attraction. It is the oldest surviving Horse Tramway in Britain. Linking with the Manx Electric Railway at Derby Castle, this is a great way to start or end your journey.

Group visits to the Horse Tram Depot and Stables are welcome by prior arrangement, please email hireme@gov.im

Getting around the Island

By Vehicle and Car Hire

Your clients' own vehicle, minibus or coach can make the journey to the Island by ferry, but car, campervan and motorcycle hire is available on the Island.

We have a number of self-drive routes complete with Google map that can include key must-see attractions and landmarks.

By Bike and Cycle Hire

Foot passengers on the Isle of Man Steam Packet ferry can bring their cycle bike for free – improvements are currently being made for better provision for cyclists on the new vessel Manxman.

The Island has hire shops or tour companies which offer cycle touring. You can be sure to find something to suit your clients requirements. Most cycle hire services provide delivery and collection service to their chosen accommodation.

A number of self-guided road cycling and mountain bike routes along with guides and maps that cover the Island's trails and connecting inter-forest routes are available.

Tours and Taxis

A selection of local tour guides offer transportation and touring in their luxurious and comfortable vehicles, while the majority of guides can offer step-on guiding services for your minibus or coach.

For more extreme and experiential tour options be sure to look for tours offered by trike or helicopter! Local guides present a number of different tours, specialisms and experiences of the Isle of Man or can create something bespoke for your clients.

Events and Private Hire

During the year Isle of Man Transport offer an array of exciting events, from a 1940's day on the Steam Railway, to learning how to drive a Manx Electric Tram as part of the annual famous Transport Festival.

Many of the events are free to attend and all information can be found on the website: **www.rail.im**

Alternatively, Bus Vannin, Heritage Rail and Douglas Bay Horse Tram offer a private bespoke hire service from vintage or state of the art modern double and single decker buses to steam trains.

The Isle of Man Transport have a dedicated team to ensure all your requirements are met and in the most cost effective way. Please contact **hireme@gov.im** or call **+44 (0) 1624 697400**.

For more information on any of your transport needs please contact Transport Headquarters on **+44 (0) 1624 697400** or email **publictransport@gov.im**
